

### Put on your best Grady Smile!

There's a new video featuring the big smiles on the faces of Grady-White families enjoying great Grady days on their boats. Put on your Grady face, and [send us pictures](#) of your big smile!

### What's in Your Onboard Toolbox?

As an owner of a Grady-White, you are fortunate to likely not experience a mechanical emergency while on the water. Having tools at hand is still a good idea!

As every good scout knows, "Be Prepared" is a wise motto in life and that goes for The Grady Life, too! [Your dealership](#) service department can help get your toolbox stocked, and refer to your [owner's manual](#) for more specific information. Here's a list of tools, supplies and spare parts to keep aboard preferably in an airtight moisture resistant marine toolbox:

- Flashlight and batteries/bulb
- Screwdrivers, slotted and Phillips head
- Wrenches, adjustable and mini
- Pliers, double jointed/tongue & groove and needle nose
- Wire cutters (for crab pot lines, etc.)
- Multi-tool pocketknife
- Duct tape
- Electrical tape
- Zip ties (assorted)
- Assorted fuses and fuse puller (tube or wafer)
- Assorted light bulbs (including for running lights)
- Fuel pump, filter and container for drainage
- Fuel/water separator filter (one per engine)
- Transom drain plug (especially for trailered boats)
- Prop and prop wrench (round)
- Voltmeter and connectors (#8 round)
- Hose clamps (#20)

To go the extra nautical mile, perhaps more to assist others who are not running a reliable Grady, 50-foot towlines are handy to have aboard. Towing insurance provides additional peace of mind. Keep phone numbers handy. Be prepared to enjoy many great Grady days!
